# OVERVIEW OF ACCESS SECURITY CLEARANCE, SFA IT SYSTEMS

**Policy:** Access to SFA IT systems is granted only after appropriate investigation. This

policy applies to employees both ED and its contractors.

# Roles and Responsibilities:

SFA is responsible for security on all SFA IT systems and facilities

Office of Inspector General's Security Staff maintains all security forms and performs investigations

**SFA Security** tracks which employees and contractors have completed security clearance **SFA IT Project Managers** are responsible for granting access to their systems if and only if all other security requirements have been met.

**Virtual Data Center Contractors** are responsible for creating user names on servers upon receipt of signed Department of Education SFA Security Request Forms

**ED LAN Contractors** are responsible for creating user names on servers upon receipt of signed Account Request Forms

**Applications Contractors** are responsible for creating user names and allocating access within applications upon receipt of signed Department of Education SFA Security Request Forms

Personnel:

System Contact -- the person responsible for implementing these procedures for each individual system. This person submits security documentation to the SFA Security Personnel Representative for new access requests. This person may also assign user names and passwords if the individual system, and not the Virtual Data Center (VDC), controls user names and passwords.

VDC system access contact -- the person responsible for establishing user names and assigning passwords at the Virtual Data Center (VDC), when access is not handled by the individual system.

Neither the System Contact nor the VDC contact will assign user names for individuals who have not completed the clearance process.

SFA Personnel Security Representative -- the person responsible for overall SFA clearance operations. This person acts as the interface between SFA systems and the Office of the Inspector General's Security staff.

# Procedures:

1. The access process starts with an authorized system manager, who identifies the level of access to be granted to the individual seeking access.

# **Security Levels:**

- Minimal-risk,
- Non-sensitive (low risk),
- Medium-sensitive (moderate risk), and
- Highly sensitive (high risk).

Minimal-risk access involves read-only, or basic system functions that are protected by software edits. Example: data entry. By definition, Federal employees cannot be granted minimal-risk clearance.

Low-risk and Moderate-risk access involves more substantial access to system data and/or software commands, but such access is either reviewed by staff with higher-risk clearance, or protected by internal software edits and cross-checks, or both. Example: programmers.

The difference between low- and moderate-risk access depends on the vulnerabilities posed by the degree of access in question, and may differ from one system to another.

High-risk access involves the most substantial access to data and/or software commands, with less cross-checking or oversight by other staff. Example: system administrators.

2. The procedure for granting access continues when the system contact provides the applicant with an access form for the particular system. In addition to the system access request form, two forms are required of every applicant:

# OF 306 -- Declaration for Federal Employment

Despite its title, all applicants, both Federal employees and contractor staff, must use this form.

# **Notice of Criminal Liability under the Privacy Act**

Commonly called the "Privacy Act Form," this form describes the penalties available for misuse of Privacy Act information, and acts as notification of those penalties to applicants.

Other forms required are determined by the level of access to be granted:

Minimal-risk clearance requires only the OF 306 and Privacy Act Form as described above.

Low-risk (also known as the "1C") clearance requires the SF-85 (Questionnaire for Non-Sensitive Positions) and either the SF-87 (for Federal employees) or FD-258 (for non-Federal employees) fingerprint card. This level of request triggers a National Agency Check and Inquiry (NACI).

Moderate-risk ("5C") clearance requires the SF-85P (Questionnaire for Public Trust Positions), a Fair Credit Reporting Act Release, and SF-87 or FD258 as applicable. This clearance triggers a Minimum Background Investigation (MBI) or Limited Background Investigation (LBI).

High-risk ("6C") clearance requires the SF-85P, SF-85P-S (Supplemental Questionnaire for Selected Positions), a Fair Credit Reporting Act Release, and the SF-87 or FD-258. This request triggers a (full) Background Investigation (BI).

Employees with existing clearances granted through another agency (government or private) should provide a cover memo or letter indicating which agency granted the clearance, the level of clearance granted, and any other pertinent information. This will allow the ED Office of the Inspector General to retrieve information from the granting agency that maintained the clearance. This could take a week or two, and interim access cannot be granted during this time, unless it is for low-risk access where the security requirement can be waived. Usually, once the IG retrieves the data, SFA will accept the clearance, with no need to submit further paperwork, as long as the clearance level is appropriate and the staff has not had more than a year's break in service from the agency or company where the clearance was granted.

3. The system manager then submits all completed forms to the SFA Personnel Security Representative, who in turn submits applicable forms to the ED OIG Security Office.

The SFA Security Representative is Joel Clark, ROB-3 Room 4004, phone: 202-260-3739.

# 4. Timeframes and Costs:

NACI -- up to 75 days after receipt by the OIG Security Office; Cost = \$75 per investigation.

LBI or MBI -- up to 120 days after receipt by the OIG Security Office; Cost = \$375 (MBI) to \$1895 (LBI) per investigation.

BI -- up to 120 days after receipt by the OIG Security Office; Cost = \$2295 per investigation.

# 5. Waivers:

Employees with an existing clearance granted through another agency can submit information concerning that clearance (see Forms section above).

Contractor employees seeking read-only access, or low-risk access for less than 120 days, are considered *minimal-risk* employees and are granted access upon completion of the two basic forms (OF 306 and Privacy Act Form). All paperwork must be in the hands of the SFA Personnel Security Representative before such a waiver is granted.

Contractor employees seeking low-risk access for longer than 120 days must also complete the SF-85 and FD-258 fingerprint card, as described above.

Employees seeking moderate-risk (5C) access may be granted provisionary access to SFA systems provided that all paperwork has been submitted to the SFA Personnel Security Representative. In other words, access may be granted as the investigation is progressing, at the discretion of the System Contact and the SFA Personnel Security Representative.

A synopsis of the forms required for each level is found in the attachment "Background Investigation Forms."

6. More information concerning personnel security clearances is available from ED Handbook 11, "Personnel Security-Suitability Program."

# PROCEDURE TO OBTAIN EDLAN NETWORK ACCESS

Fill out an Account Request Form (ARF), blank & sample attached.

C.O.T.R. Submits form(s) to Lydia Morales (Suite 6200, Portals Building)

This form is used to create an EDLAN user ID with the lowest (0C/Minimal-Risk) level of access, Basic office functions/software, e-mail, etc. Access to higher "security-levels" is based upon the forms and procedures detailed in section 4.

This form may be filled out by a contractor Task Leader but must be submitted to Lydia Morales by the C.O.T.R.

Note... An account request may be processed and an account assigned, but no software will be loaded

on user/client systems until the new equipment has been properly checked into ED/SFA hardware inventory and an inventory barcode sticker has been issued and attached to the equipment.

# PROCEDURE TO OBTAIN EDNET CLEARANCES

The Department of Education IT Security Office has identified 4 levels of access privileges;

- OC Minimal Risk, Read-Only
- 1C Low Risk, Non-Sensitive
- 5C Moderate Risk
- 6C High Risk

# Classification

As a general rule, IT users/employees are placed into the above categories based on function and need to access private data or otherwise sensitive material.

# OC - Minimal Risk, Read-Only

Public Access, Ability to access their personal data/status indicators. no ability to change their data or access another customers data.

# 1C - Low Risk, Non-Sensitive

Basic (beginning) system user, access to non-sensitive job related data only. Ability to update job specific non-sensitive data only

# 5C - Moderate Risk

System software & business process developers, Quality Assurance & I.V.& V. analysts. Complete access to all sensitive and non-sensitive data as needed, restricted to off line or "non-production" systems. Read-Only access to "Production" system process definitions, source code etc. as needed. All "Write-Access" to the production systems routed through Quality Assurance and Configuration Management procedures.

# 6C - High Risk

System Administrators, Database Administrators, Configuration Management. Access to both Off-Line and Production systems. Authority to determine content and compliment, and validity of system components. Ability to reboot, backup, restore, recreate systems in whole or in part.

# Clearances...

The need for a specific clearance level is determined by the Task Leaders, Project Managers, C.O.T.R.s etc. Qualifying for these access privileges begins with the completion of a series of forms.

# Rules of Behavior

# Federal Pell Grant Rules of Behavior A statement of User Responsibility

**User Acknowledgment** - Personnel who use any ED/ACS/CSC computing resource (e.g., PCS, workstations) and associated networks shall read and sign this statement annually. The user will keep copies of the signed acknowledgment; the originals will be placed in the user's official personnel file.

**For Official, Approved Use Only** - the Government funds Pell Grant computing resources to support various programmatic efforts needed to accomplish the Department's mission. As such, these resources are to be used only for official Government business. Users should remember that when they use the Pell Grant computing resources, they are acting in their employment capacity for ED. Unless approved in writing by management, we must avoid any activity outside that employment capacity, or which could bring harm or embarrassment to ED/ACS/CSC.

**Privacy Expectations** - we caution all users that, overall, computers, networks, and information systems are not "private". Users should have no expectation of privacy when using computing resources. Electronic mail sent via the network may bear site-specific identifiers in the address (e.g., name@cdsi.com, or name@ed.gov). As such, despite disclaimers, users using ED/ACS/CSC E-mail are representing the site and ED/ACS/CSC and must act accordingly.

**Monitoring of Computing Resources** - Activities on ED/ACS/CSC systems and networks are subject to monitoring, recording, and periodic audits to ensure that the resources are functioning properly and to protect against unauthorized use. The system administrator may access any "user's" computer system or data communications and disclose information obtained through such auditing to appropriate third parties, e.g., law enforcement personnel. Use of ED/ACS/CSC computing resources is expressed consent by the user to such monitoring, recording, and auditing.

**Violations** - Adherence to accepted user principles regarding appropriate use by all users is critical. Violations of these principles or ED/ACS/CSC computer policies may lead to disciplinary action, up to and including termination of employment.

**Manager/Supervisor Responsibilities** - Management personnel must be leaders in applying these user principles. Managers are responsible for implementing these accepted user principles in their organization and will be accountable for ensuring that users are aware of and acknowledge their responsibilities.

# **Accepted User Principles**

Computer security personnel recognize users of ED/ACS/CSC computers, networks, and information Systems as an integral part of the overall ED computer security program. Users' access to computing resources shows a level of trust bestowed upon them by their management and ultimately by ED. Users are responsible for their actions and need to be aware of and acknowledge their responsibilities.

At a minimum users are responsible for these principles:

- Ensuring that ED/ACS/CSC, computing resources are used only for <u>official government business</u>. The employee's manager must approve any other use in writing.
- Knowing who their site computer security personnel are and how they can be contacted.
- Ensuring that all software is used according to licensing agreements *and* has been authorized for use by management.
- Protecting the information, they are processing from access by, or disclosure to, unauthorized personnel.
- Immediately reporting all security incidents and potential threats and vulnerabilities involving computing resources to designated computer security personnel.
- Protecting their authenticators, such as passwords. Reporting any compromise or suspected compromise of a password to designated computer security personnel.
- Using only systems, networks, data, control information, and software, for which they are authorized.

MODERNIZATION PARTNERS Security & Access Procedures

Ensuring that system media and system output are marked according to their sensitivity and are properly
controlled and stored.

- Knowing required storage sanitization procedures (e.g., overwriting disks that contain sensitive data before reuse).
- Informing management when access to a particular computing resource is no longer required, such as when the user completes a project.
- Avoiding the introduction of malicious code into any computing resource.
- Preventing physical damage to the system.
- Ensuring that Card Keys/Cipher lock combinations to the work area are secured always and not duplicated.
- Notifying management before relocating computing resources. Not removing equipment or storage media from the work area without prior written authorization from the Project Manager or the Pell Grant ACSO.
- Following procedures for signing out sensitive application documentation from the library and ensuring that we do not remove sensitive information from the work area.

# **Privileged User Principles**

Privileged users include those with "superuser, root," "RACF Master Keys", or equivalent access to a system (e.g., system administrators; computer operators; ACSOs; those who have control of the operating system of the computer or network or who set up and administer user accounts, passwords, etc.; users having access to change control parameters such as routing tables or path priorities on routers, multiplexors, or other key equipment; users whom we have given the power to control and change other users' access to data, programs, or applications; network administrators; database administrators; users whom we have given special access for trouble shooting or security management functions.) In addition to Accepted User Principles, Privileged Users are also responsible for:

- Protecting the root, superuser, master key, password and not sharing the password and/or account.
- All supervisors, root, master key actions using his or her account.
- Reporting all information system/network, potential security-related incidents to designated computer security personnel.
- Using special access or privileges *only* to perform authorized tasks and functions.
- Using a **non-privileged** user account for everyday work not associated with the tasks of "a superuser or system administrator".

Management may augment the previous list of responsibilities with additional requirements. Any question about your responsibilities as a user of computing resources should be discussed with your supervisor.

# A Summary of Your Rights Under the Fair Credit Reporting Act

# A Summary of Your Rights Under the Fair Credit Reporting Act

The federal Fair Credit Reporting Act (FCRA) is designed to promote accuracy, fairness, and privacy of information in the files of every "Consumer Reporting Agency" (CRA). Most CRA's are credit bureaus that gather and sell information about you - such as if you pay your bills on time or have filed bankruptcy - to creditors, employers, landlords, and other businesses. You can find the complete text of the FCRA, 15 U. S.C. 1681-1681u, at the Federal Trade Commission's web site (http://www.ftc-gov). The FCRA gives you specific rights, as outlined below. You may have additional rights under state law. You may contact a state or local consumer protection agency or a state attorney general to learn those rights-

- You must be told if information in your file has been used against you. Anyone who uses information from a CRA to take action against you such as denying an application for credit, insurance, or employment must tell you, and give you the name, address, and phone number of the CPA that provided the consumer report.
- You can find out what is in your file. At your request, a CRA must give you the information in your file, and a list of everyone who has requested it recently. There is no charge for the report if a person has taken action against you because of information supplied by the CRA, if you request the report within 60 days of receiving notice of the action. You also are entitled to one free report every twelve months upon request if you certify that (1) you are unemployed and plan to seek employment within 60 days, (2) you are on welfare, or (3) your report is inaccurate due to fraud. Otherwise, a CPA may charge you up to eight dollars.
- You can dispute inaccurate information with the CRA. If you tell a CRA that your file contains inaccurate information, the CRA must investigate the items (usually within 30 days) by presenting to its information source all relevant evidence you submit, unless your dispute is frivolous, The source must review your evidence and report its findings to the CRA. (The source also must advise national CRAs -- to which it has provided the data -- of any error.) The CRA must give you a written report of the investigation and a copy of your report if the investigation results in any change. If the CRA's investigation does not resolve the dispute, you may add a brief statement to your file. The CRA must normally include a summary of your statement in future reports. If an item is deleted or a dispute statement is filed, you may ask that anyone who has recently received your report be notified of the change.
- Inaccurate information must be corrected or deleted. A CRA must remove or correct inaccurate or unverified information from its files, usually within 30 days after you dispute it. However, the CRA is not required to remove

accurate data from your file unless it is outdated (as described below) or cannot be verified. If your dispute results in any change to your report, the CRA cannot reinsert into your file a disputed item unless the information source verifies its accuracy and completeness. In addition, the CP A must give you a written notice telling you it has reinserted the item. The notice must include the name, addresses, and telephone number of the information sources.

- You can dispute inaccurate items with the source of the information. If you tell anyone Such as A creditor who reports to & CRA that you dispute an item, they may not then report the information to a CRA without including a notice of your dispute. In addition, once you have notified the source of the error in writing, it may not continue to report the information if it is, in fact, an error.
  - Outdated information may not be reported. In most cases, a CRA may not report negative information that is more than seven years old, ten years for bankruptcies.
  - Access to your file is limited. A CRA may provide information about you
    only to people with a need recognized by the FCRA usually to consider an
    application with a creditor, insurer, employer, landlord, or other business.
  - Your consent is required for reports that are provided to employers, or reports that contain medical information. A CRA may not give out information about you to your employer, or prospective employer, without your written consent. A CRA may not report medical information about you to creditors, insurers, or employers without your permission.
  - You may choose to exclude your name from CRA lists for unsolicited credit and insurance offers. Creditors and insurers may use file information as the basis for sending you unsolicited offers of credit or insurance. Such offers must include a toll-free phone number for you to call if you want your name and address removed from future lists. If you call, you must be kept off the lists for two years. If you request, complete, and return the CRA form provided for this purpose, you must be taken off the lists indefinitely.
  - You may seek damages from violators. If a CRA, a user or (in some cases) a provider of CRA data, violates the FCRA, you may sue them in state or federal court.

# 8 WHERE YOU HAVE LIVED

List the places where you have lived, beginning with the most recent (#1) and working back 5 years. All periods must be accounted for in your list. Be sure to indicate the actual physical location of your residence: do not use a post office box as an address, do not list a permanent address when you were actually living at a school address, etc. Be sure to specify your location as closely as possible: for example, do not list only your base or ship, list your barracks number or home port. You may omit temporary military duty locations under 90 days (list your permanent address instead), and you should use your APO/FPO address if you lived overseas.

For any address in the last 3 years, list a person who knew you at that address, and who preferably still lives in that area (do not list people for residences completely outside this 3-year period, and do not list your spouse, former spouses, or other relatives).

# 9 WHERE YOU WENT TO SCHOOL

List the schools you have attended, beyond Junior High School, beginning with the most recent (#1) and working back 5 years. List all College or University degrees and the dates they were received. If all of your education occurred more than 5 years ago, list your most recent education beyond high school, no matter when that education occurred.

- Use one of the following codes in the "Code" block:
- 1 High School
- 2 College/University/Military College
- 3 Vocational/Technical/Trade School
- For correspondence schools and extension classes, provide the address where the records are maintained.

List your employment activities, beginning with the present (#1) and working back 5 years. You should list all full-time work, part-time work, military service, temporary military duty locations over 90 days, self-employment, other paid work, and all periods of unemployment. The entire 5-year period must be accounted for without breaks, but you need not list employments before your 16th birthday.

- Code. Use one of the codes listed below to identify the type of employment:

- Active military duty stations
   Active military duty stations
   Actional Guard/Reserve
   U.S.P.H.S. Commissioned Corps
   Other Federal employment
- S State Government (Non-Federal employment)
   6 Self-employment (Include business name and/or name of person who can verify)
- T Unemployment (Include name of person who can verify)
   Federal Contractor (List Contractor, not Federal agency)
- Employer/Verifier Name. List the business name of your employer or the name of the person who can verify your self-employment or unemployment in this block. If military service is being listed, include your duty location or home port here as well as your branch of service. You should provide separate listings to reflect changes in your military duty locations or home ports.
- Previous Periods of Activity. Complete these lines if you worked for an employer on more than one occasion at the same location. After entering the most recent period of employment in the initial numbered block, provide previous periods of employment at the same location on the additional lines provided. For example, if you worked at XY Plumbing in Denver, CO, during 3 separate periods of time, you would enter dates and information concerning the most recent period of employment first, and control dates a position little and receives for the two previous additions and the lines below that information.

Standard Form 85P Revised September 1995 U.S. Office of Personnel Management 5 CFR Parts 731, 732, and 736 Form approved: OMB No. 3206-0191 NSN 7540-01-317-7372 85-1602

# **Questionnaire for Public Trust Positions**

Follow instructions fully or we cannot process your form. Be sure to sign and date the certification statement on Page 7 and the release on Page 8. If you have any questions, call the office that gave you the form.

#### Purpose of this Form

The U.S. Government conducts background investigations and reinvestigations to establish that applicants or incumbents either employed by the Government or working for the Government under contract, are suitable for the job and/or eligible for a public trust or sensitive position. Information from this form is used primarily as the basis for this investigation. Complete this form only after a conditional offer of employment has been made.

Giving us the information we ask for is voluntary. However, we may not be able to complete your investigation, or complete it in a timely manner, if you don't give us each item of information we request. This may affect your placement or employment prospects.

#### Authority to Request this Information

The U.S. Government is authorized to ask for this information under Executive Orders 10450 and 10577, sections 3301 and 3302 of title 5, U.S. Code; and parts 5, 731, 732, and 736 of Title 5, Code of Federal Regulations.

Your Social Security number is needed to keep records accurate, because other people may have the same name and birth date. Executive Order 9397 also asks Federal agencies to use this number to help identify individuals in agency records.

# The Investigative Process

Background investigations are conducted using your responses on this form and on your Declaration for Federal Employment (OF 306) to develop information to show whether you are reliable, trustworthy, of good conduct and character, and loyal to the United States. The information that you provide on this form is confirmed during the investigation. Your current employer must be contacted as part of the investigation, even if you have previously indicated on applications or other forms that you do not want this.

In addition to the questions on this form, inquiry also is made about a person's adherence to security requirements, honesty and integrity. vulnerability to exploitation or coercion, falsification, misrepresentation, and any other behavior, activities, or associations that tend to show the person is not reliable, trustworthy, or loyal.

# Your Personal Interview

Some investigations will include an interview with you as a normal part of the investigative process. This provides you the opportunity to update, clarify, and explain information on your form more completely, which often helps to complete your investigation faster. It is important that the interview be conducted as soon as possible after you are contacted. Postponements will delay the processing of your investigation, and declining to be interviewed may result in your investigation being delayed or canceled.

You will be asked to bring identification with your picture on it, such as a valid State driver's license, to the interview. There are other documents you may be asked to bring to verify your identity as well.

These include documentation of any legal name change, Social Security card, and/or birth certificate.

You may also be asked to bring documents about information you provided on the form or other matters requiring specific attention. These matters include alien registration, delinquent loans or taxes, bankruptcy, judgments, liens, or other financial obligations, agreements involving child custody or support, alimony or property settlements, arrests, convictions, probation, and/or parole.

# 9 WHERE YOU HAVE LIVED

List the places where you have lived, beginning with the most recent (#1) and working back 7 years. All periods must be accounted for in your list. Be sure to indicate the actual physical location of your residence: do not use a post office box as an address, do not list a permanent address when you were actually living at a school address, etc. Be sure to specify your location as closely as possible: for example, do not list only your base or ship, list your barracks number or home port. You may omit temporary military duty locations under 90 days (list your permanent address instead), and you should use your APO/FPO address if you lived overseas.

For any address in the last 5 years, list a person who knew you at that address, and who preferably still lives in that area (do not list people for residences completely outside this 5-year period, and do not list your spouse, former spouses, or other relatives). Also for addresses in the last 5 years, if the address is "General Delivery," a Rural or Star Route, or may be difficult to locate, provide directions for locating the residence on an attached continuation sheet.

## PROCEDURE TO OBTAIN VDC ACCESS AND ACCESS TO OTHER APPLICATIONS

All security forms must be completed and access approved before a Contractor Employee can apply for access to a specific VDC server or application.

For access to all SFA applications, complete the Department of Education Student Financial Assistance (SFA) Security Request form. One form is required for each system.

Under section **C. Type of Access Requested**, specifics about servers, etc., must be completed. For Modernization Partners, Josh Stauffer and Michael Tran have that information.

Under section **E. Signatures**, please note that the COTR/Security Officer and/or ED Project Manager refers to the Education employee responsible for that specific application. Again, Josh Stauffer and Michael Tran have that information.
